Sharratt's distinctive bright and bold illustrations outlined in black will undoubtedly make this mix'n'match, split-page collection of unlikely and whacky mixtures a hit. It is a follow up to **Ketchup on Your Cornflakes** and will keep young children chuckling throughout. The more successful and humorous mix-ups are those involving people and creatures, less so are those containing inanimate objects. The text on the left hand side of each double page varies from big to huge and from bold to ultra bold. Some people may prefer a more consistent approach to the size of print and its boldness, though this is all part of the book's originality. The typeface, with serifs and the use of ampersands, is perhaps a little too fussy in a book intended for young children.
