As an admirer of the original Supergran stories, with the David McKee illustrations, I was prepared to cry 'sell out!' as the 'picture book version' appeared. However, I am delighted to discover that the comic strip format has not dulled the humour one jot or damaged the appeal of Gran, Edison and Willard in the slightest. Gran overcomes all the dastardly plots that the Inventor can contrive, even the dreaded super Tub is foiled in typical fashion, while the Toughies go the way of all 'scunners'. So, to borrow a cliché, if you haven't read the stories, watch the pictures.
