I was prepared to be very scathing about this book, particularly when, apparently, with the author's approval, the barn cat found itself within a few pages, domesticated and dressed in doll's clothes. Fortunately it escapes from this predicament and after a series of owners and multiple adventures settles down in an animal sanctuary. It is a very readable book. Those who don't love animals are surely dealt with and the author touches on the dignity of animals in the wild. A gentle adventure story and a satisfactory read for animal lovers in primary school.
