In the middle of the night the animals hold a meeting and decide that they will take over from the humans the very next day. And they do. People are put into cages at the zoo; people are treated like pets by their own animals and have to perform in the circus. Eventually the people grow tired of this and decide something must be done. So they hold a meeting in the middle of the night and decide to get all the keys back and take over again. So they do. This is an interesting book; it is thought-provoking and might be a bit too scary if it did not have such a safe and happy ending. The pictures are delightful and add greatly to the sense of fun. Probably best for school age children to read for themselves.
