Great value for money! Extensively indexed to make it a reference book as well as a valuable collection of 35 of the best stories ever told, these narratives are culled from the cultures of the world and relayed in a witty, very engaging style - 'Hypaepae didn't have a village green. It had a village mouldy brown', etc, etc. In the best oral tradition these tales yell to be read aloud and shared with children of all ages and key stages. Every class teacher should be supplied with a copy. My reading groupies devoured it.
